

Mitsubishi Test Methods

ES-X60210	Plastic parts - Interior Trims
ES-X60211	Moulded plastics parts - exterior use
ES-X60263	Trim - rear package shelf
ESX60317	Polypropylene foam for bumper
ESX60410	Flammability of Interior Materials
ES-X60411	Soilability of interior skins
ES-X60527	Non-foaming soft vinyl chloride sheet floor mat, luggage compartment mat
ES-X60528	Damping mat toe board specification
ES-X61182	Marks and labels - exterior and interior trim
ES-X62040	Carpet needle punch
ES-X62041	Carpet - Strength of Joint
ES-X62042	Carpet - cut pile, loop pile
ES-X62046	Polyester multilayer non-woven fabric - for trimming in trunk
ES-X62050	Webbings - seat belt
ES-X62216	Felt - floor, roof, etc
ES-X62224	Deadener - engine compartment
ES-X62225	Sound insulation material
ES-X62310	Board interior
ES-X71222	Painting hard thermoplastic parts specification
ES-X72210	Vinyl leather high frequency welding - interior trim
ES-X83214	Carpet specification
ES-X83215	Moulded plastics
ES-X83217	Fabrics and polyvinyl chloride sheet - interior & exterior
ES-X83222	Chemical agents resistance test for lamp lenses
ES-X83225	Evaluation of soundproof materials
ES-X83230	Tapes, films (with pressure sensitive adhesives)
ES-X83231	Standard test method - for fogging of interior materials
ES-X83240	Tapes & films - pressure sensitive adhesive
ES-X83244	Std test method - plastic parts
MS 81-2030	Commercial tolerances - plastic moulding
MS38/27	Insulation - sheet form barrier assembly
