

# Society of Automotive Engineers

J 315	Fibreboard test procedure
J 369	Automotive, flammability of polymeric interior materials horizontal method
J 855	Stretch and set of textiles
J 883	Test method for determining dimensional stability of automotive textile materials
J1351	Hot odour test
J1530	Test method for det. Resistance to abrasion, bearding, and fibre loss of automotive carpet materials
J1756	Fogging characteristics of interior automotive materials
J1847	Abrasion resistance testing - Vehicle exterior graphics and pin striping
J1885	Automotive interior trim -accelerated exposure (Atlas)
J1960	Accelerated exposure of automotive exterior components using a controlled irradiance water-cooled xenon arc apparatus
